1 Introduction

1.1 Summary

This document presents a comprehensive framework for the design, planning, and execution of the ESPOLTEL HIRING MANAGER system. This product integrates a robust risk management strategy, a detailed project execution timeline, and a structured Sprint Backlog plan. Through the inclusion of Unified Modeling Language (UML) diagrams, we provide a thorough representation of both the static and behavioral logic of the system, ensuring that the architecture adheres to SOLID principles and eliminates implementation inefficiencies.

Our primary objective is to meticulously define the planning and breakdown of the system's static structure, logical flow, behavioral processes, implementation strategies, and activity sequences. These components collectively support the realization of a user-centric, scalable, and maintainable product.

1.2 Key features and Objetives

The ESPOLTEL HIRING MANAGER product is designed to streamline and enhance the recruitment process, leveraging a combination of web and mobile modules for maximum efficiency. Key objectives include:

- 1. **Risk Mitigation:** Developing a proactive risk management plan to address potential challenges in implementation and deployment.
- 2. **Comprehensive Planning:** Structuring the project execution into manageable phases using Agile methodologies.
- 3. **System Design:** Crafting static and behavioral UML diagrams to visualize the architecture, interactions, and workflows.
- 4. Adherence to SOLID Principles: Ensuring maintainability and scalability by avoiding anti-patterns and promoting clean code practices.

2 Risk management, product and sprint backlogs and scheduling

2.1 Risk management

In this section, we will identify, quantify, and classify the various risks that may arise during the software development process. Additionally, we will provide a detailed assessment of the likelihood of occurrence, the potential impact of each risk, and the corresponding protocols to be followed in the event they materialize.

Description	Probability Range
Not Probable: The event is highly unlikely to occur.	0% - 20%
Low Probability: The event is unlikely but possible.	21% - 40%
Moderate Probability: The event has an even chance of occurring.	41% - 60%
High Probability: The event is likely to occur.	61% - 80%
Very High Probability: The event is almost certain to occur.	81% - 100%

Table 2.1: Probability of Occurrence

Impact Level	Description
Low Impact	Minimal effect on the project. No significant changes required.
Moderate Impact	Some delays or adjustments needed but manageable within the team.
High Impact	Significant disruptions, requiring immediate attention and resource allocation.
Critical Impact	Severe consequences on project delivery, with major delays or failure possible.

Table 2.2: Impact Levels

The following table outlines the identified risks associated with the project, including their probability of occurrence, potential impact, and the corresponding action protocol.

Id	Name	Probability	Impact	Action Protocol
001	Changes in requirements after development completion	High Probability	High Impact	Establish a communication protocol to clarify that no new requirements will be accepted after the design phase is finalized.
002	Discovery of implicit requirements not considered in the design	Very High Probability	High Impact	Accept and address the risk by updating the design and implementing the missing requirements.
003	Need for developer training	High Probability	High Impact	Provide immediate training on the required frameworks to minimize delays and ensure smooth development progress.
004	Difficulty understanding prior implementation, causing delays	Low Probability	Critical Impact	Reduce the probability by consulting previous implementers to gain insights into the system before development begins.
005	Schedule misalignment affecting task timelines	Not Probable	High Impact	Mitigate the risk by redistributing tasks and holding regular progress meetings to stay on track.
006	Performance drop due to prior monolithic architecture	Low Probability	High Impact	Accept the risk, inform the client, and propose alternative solutions to improve performance.
007	Database schema not designed for extensions	Low Probability	Moderate Impact	Accept the risk and adapt the existing schema to accommodate the new requirements.
008	Insufficient documenta- tion provided by the client	High Probabil- ity	Critical Impact	Reduce probability by maintaining active communication with the client to obtain necessary documentation.

Table 2.3: Risk Assessment and Action Protocols

2.2 Product backlog

ID	Priority	Dependencies	Item	Estimation
				(hours)
PB1	0	None	Research Spring Boot platform: Investigation of	4
			the architecture, modules, and functionalities of	
			Spring Boot relevant to the project. Includes	
			feasibility evaluation and the creation of a doc-	
			ument with findings and recommendations.	

ID P	Priority	Dependencies	Item	Estimation
				(hours)
PB2 0)	None	Definition of the database schema: Design the	8
			database schema, including the definition of ta-	
			bles, relationships, and constraints. An Entity-	
			Relationship diagram and the SQL script for	
			database creation will be generated.	
PB3 1	_	PB1, PB2	As a user of ESPOLTEL Hiring Manager, I	6
		,	want to create my own account so that I can	
			access all controls related to my role, ensuring	
			my information and permissions are separate	
			from other users.	
PB4 1		PB3	As a user of ESPOLTEL Hiring Manager, I	8
		120	want to verify my email address upon registra-	O
			tion so that I can ensure secure access to the	
			system and confirm my identity.	
PB5 2)	PB3	As a user of ESPOLTEL Hiring Manager, I	6
	,	1 150	want to create my own account using the mo-	O
			bile app, so that I can access all controls corre-	
			sponding to my role, and ensure that my infor-	
			mation and permissions are separate from those of other users.	
PB6 1		PB5		10
PD0 1	-	LD9	As a user of ESPOLTEL Hiring Manager, I	10
			want to verify my email address when regis-	
			tering from my mobile device, so that I can	
			ensure secure access to the system and confirm	
DD7 1		DDe	my identity.	4
PB7 1	-	PB3	As a user of ESPOLTEL Hiring Manager, I	4
			want to log in securely using my credentials so	
			that I can access features and project manage-	
DD0 1		DDF	ment tools.	
PB8 1	-	PB7	As a user of ESPOLTEL Hiring Manager, I	6
			want to select my role (Aspirant, Project Man-	
			ager, Project Director, or HR member) before	
			logging in so that I am directed to the appropri-	
			ate login process and access functionalities spe-	
			cific to my role.	
PB9 2	}	PB7	As a user of ESPOLTEL, I want to securely	5
			log in to the system using my credentials on my	
			mobile device, so that I can access the appro-	
			priate functions and features according to my	
			user role.	
PB10 2		PB8	As a user of ESPOLTEL, I want to be able	6
			to select my role (Aspirant, Project Manager,	
			Project Director, or HR member) on my mobile	
			device before logging in, so that I can be di-	
			rected to the specific features and functionalities	
			relevant to my role.	

ID	Priority	Dependencies	Item	Estimation
		_		(hours)
PB11	3	PB3	As a user of ESPOLTEL Hiring Manager, I	5
			want to be able to recover my password through	
			a secure and efficient process if I forget it, so	
			that I can regain access to the system and con-	
			tinue with my responsibilities without delay.	
PB12	3	PB5	As a user of ESPOLTEL Hiring Manager, I	6
			want to be able to recover my password through	
			a secure and efficient process by email from my	
			mobile device if I forget it, so that I can re-	
			gain access to the system and continue with my	
			responsibilities without delay.	
PB13	2	PB1,PB2	As an aspirant or manager, I want to have	12
			access to contracts or confidential agreements	
			pending my signature, so that I can review and	
			sign them digitally within the web application.	
PB14	1	P13	As an aspirant, I want to upload my digital	5
			certificate to the platform so that I can sign	
			documents such as contracts or confidentiality	
			agreements for the projects I have applied to.	
PB15	1	P13	As a manager, I want to upload my digital cer-	5
			tificate to the platform so that I can sign mul-	
			tiple documents such as contracts or confiden-	
			tiality agreements for the projects I manage.	
PB16	1	P14	As an aspirant, I want to digitally sign my	12
			contract and confidentiality agreement so that	
			I can complete the paperwork required for my	
			hiring process.	
PB17	1	P15	As a manager, I want to digitally sign multiple	12
			documents, such as contracts or confidentiality	
			agreements, simultaneously, so that I can save	
DD40		DD4.0	time and work more efficiently.	
PB18	3	PB16	As an aspirant, I want to view the contracts	6
			of the projects I have applied for and that are	
			currently active, so that I have a clear view of	
DD10	0	DD10	the agreements I have signed.	4
PB19	3	PB18	As an aspirant, I want to download the con-	4
			tracts of the projects I have applied for and that	
			are currently active, so that I have a record of	
PB20	3	PB16	the agreements I have signed.	6
1 1 1 2 0) 	1 D10	As an aspirant, I want to view the contracts of the projects I have applied for and that are cur-	U
			rently active on my smartphone, so that I have	
			a clear view of the agreements I have signed.	
PB21	3	PB20	As an aspirant, I want to download the con-	4
1 D21) 	1 1040	tracts of the projects I have applied for and that	4
			are currently active on my smartphone, so that	
			I have a record of the agreements I have signed.	
			I have a record of the agreements I have signed.	

ID	Priority	Dependencies	Item	Estimation
				(hours)
PB22	1	PB16	As an HR member, I want to validate the dig-	8
			ital signatures of aspirants so that I can ensure	
			contracts and agreements are formalized.	
PB23	2	PB3	As a project manager, I want to create a	12
			project by defining its name, description, start	
			date, end date, and type, so that the project's	
			objectives and timeline are clearly established.	
PB24	2	PB23	As a project manager, I want to define roles	6
			and profiles required for the project, including	
			necessary skills and experience for each profile,	
			so that aspirants can understand the require-	
			ments and apply to suitable positions.	
PB25	3	PB24	As a Director, I want to recommend an aspi-	8
			rant who has previously worked for ESPOLTEL	
			for a role in a project, based on their past perfor-	
			mance and experience, so that I have a worker	
			I trust in my project.	
PB26	2	PB24	As an HR member, I want to validate the pro-	12
			files created by project directors so that I can	
			edit, approve, the profiles and positions defined	
			for a project, ensuring they align with the com-	
			pany's standards and requirements.	
PB27	2	PB23	As a project manager or director at ESPOL-	8
			TEL, I want to monitor on my smartphone the	
			projects under my supervision, so that I can	
			maintain better control and make informed de-	
			cisions.	
PB28	2	PB23	As a Director or Manager, I want to view the	10
			resources and budget assigned to my project, \mathbf{so}	
			that I can track project expenses and resource	
			utilization.	
PB29	1	PB8	As an aspirant, I want to apply for a position	10
			in a project of interest where I meet the required	
			profile so that I can obtain the desired position.	
PB30	2	PB29	As an aspirant, I want to cancel my postulation	8
			for a specific role or hiring profile, so that I	
			can withdraw from a recruitment process if my	
			circumstances change.	
PB31	2	PB8, PB29	As an HR member, I want to schedule inter-	10
			views with aspirants, specifying the date, time,	
			and interviewer, so that the selection process	
			can be efficiently conducted.	
PB32	2	PB31	As a HR member, I want to record interview	8
			results and observations, including scores and	
			comments, so that there is a formal record of	
			each aspirant's evaluation.	

ID	Priority	Dependencies	Item	Estimation
DDaa	2	DD04 DD00	A III	(hours)
PB33	2	PB24, PB29	As an HR member, I want to verify the require-	8
			ments based on the information of an aspirant,	
			so that I can ensure they meet the necessary	
PB34	3	PB32	qualifications for a project.	4
P D 34	3	F D 0 2	As an HR member, I want to add private com-	4
			ments in aspirants' postulations so that I can keep a record of observations and notes during	
			the selection process.	
PB35	2	PB32, PB33,	As an HR member, I want to select the best	10
1 D30	_ <u> </u>	PB34	aspirants based on interview results and fulfilled	10
		1 D04	requirements, so that I can identify the most	
			suitable candidates for each role.	
PB36	2	PB8	As an HR member, I want to create and man-	15
1 1000	<i>Δ</i>	1 100	age forms for pre-hiring and hiring processes,	10
			defining mandatory fields and document up-	
			loads, so that aspirants can provide the nec-	
			essary information.	
PB37	2	PB8	As an HR member, I want to upload templates	12
1 501		1 00	for contracts and agreements, so that appropri-	12
			ate templates are available for generating per-	
			sonalized documents for aspirants.	
PB38	2	PB29, PB36	As an aspirant, I want to upload my per-	8
1 200	_	1220, 1200	sonal documents (such as CV, ID, certificates,	
			etc.) and relevant information by completing	
			forms defined by HR, so that I can fulfill	
			postulation requirements.	
PB39	2	PB37	As an HR member, I want to generate con-	12
			tracts and agreements from templates, so that	
			I can save time in creating personalized docu-	
			ments.	
PB40	2	PB32, PB33,	As an HR member, I want to view aspirants	4
		PB34	by specific skills and experience, so that I can	
			make it easier to select candidates who meet the	
			project requirements.	
PB41	2	PB8	As a Director, HR Member, or Manager, I want	10
			to view the hires or personnel associated with a	
			project, so that I have an overview of the team	
			composition and recruitment progress.	
PB42	2	None	As a user of ESPOLTEL Hiring Manager, I	8
			want to be able to search and filter informa-	
			tion across the platform, including projects, as-	
			pirants, roles, documents, and other relevant	
			data, so that I can quickly find and focus on	
DD : :		DD10	the data I need.	
PB43	1	PB10	As a user of the ESPOLTEL Hiring Manager	12
			mobile app, I need to receive notifications for	
			any important events in the recruitment pro-	
			cess, so that I can stay informed and respond	
			promptly.

Field	Description
ID	UC005
Name	Schedule an interview
Created by	Team 3
Updated by	Alex Vizuete
Date creation	08/01/25
Date last edition	08/01/25
Description	Human Talent Staff need to schedule an interview for accepted aspirants by selecting a specific day and time.
Actors	Human Talent
Extends	None
Preconditions	
	• Aspirant must be marked as accepted for the interview process.
Postconditions	
	• Aspirants are notified about the scheduled interview.
	• Human Talent Staff can see the interview in a calendar.
Flow	 Human Talent Assistant navigates to the interviews tab. The Assistant clicks on the "Create New Interview" button.
	3. The Assistant selects a date using the input calendar and
	specifies the interview time.
	4. The Assistant selects the aspirant for the interview.
	5. The Assistant clicks the "Create" button.
	6. The interview is scheduled and displayed in the calendar
41.	in the interviews section.
Alternative Flow	None

Table 3.5: Use Case Documentation - (UC005) Schedule an Interview

Field	Description
ID	UC006
Name	Register an interview
Created by	Jeremy Poveda
Updated by	Jeremy Poveda
Date creation	12/01/25
Date last edition	12/01/25
Description	Human Talent Staff registers the outcome of an interview by reviewing the aspirant's requirements, adding observations, and saving the result.
Actors	Human Talent
Extends	None
Preconditions	• An interview must have been scheduled with the aspirant.
Postconditions	
	 The interview is marked as complete in the system. Observations and results are stored for the aspirant's record.
Flow	 Human Talent Staff navigates to the "Interviews" section. The HT Staff selects the scheduled interview they wish to register. The HT Staff reviews the aspirant's requirements (e.g., submitted documents, qualifications). And with the In real life interview. The HT Staff writes observations about the aspirant's performance and any relevant notes. The HT Staff saves the results of the interview, marking it as completed.
Alternative Flow	None

Field	Description
ID	UC007
Name	Re-schedule an interview
Created by	Team 3
Updated by	Alex Vizuete
Date creation	12/01/25
Date last edition	12/01/25
Description	Human Talent Staff handles situations where the aspirant
	misses the interview or cannot attend. The interview can be
	re-scheduled, canceled, or removed as needed.
Actors	Human Talent
Extends	None
Preconditions	
	The interview must have been previously scheduled.
	The interview must have been previously seneduled.
Postconditions	
	• The interview is either re-scheduled, marked as can-
	celed, or deleted from the system.
	• The aspirant is notified about the change via email.
	8,,
Flow	1. Human Talent Staff navigates to the "Interviews" section.
	2. The HT Staff identifies the interview to be re-scheduled
	or canceled.
	3. The HT Staff selects the option to re-schedule or cancel
	the interview.
	4. If re-scheduling:
	a. The Staff selects a new date and time for the inter-
	view.
	b. The Staff notifies the aspirant about the new sched-
	ule.
	5. If canceling:
	b. The interview is marked as canceled or removed from
	the system.
	6. The changes are saved in the system.
Alternative Flow	3a. The Staff decides to delete the interview entirely:
	a. The interview is removed from the system.
	b. The aspirant is notified about the removal.

Table 3.7: Use Case Documentation - (UC007) Re-schedule an Interview

Field	Description
ID	UC008
Name	Select Best Aspirants
Created by	Jeremy Poveda
Updated by	Jeremy Poveda
Date creation	12/01/25
Date last edition	12/01/25
Description	Human Talent Staff selects the best aspirants based on in-
	terview results and the aspirant's profile, making sure they
	meet the requirements for the position.
Actors	Human Talent
Extends	None
Preconditions	
	• Aspirants must have completed their interviews.
	• The interview results must be available and recorded.
	• The aspirant's profile should meet the minimum requirements of the project.
Postconditions	
T OSCIONATIONS	• The best aspirants are selected based on their interview results and profile compatibility.
	• The selected aspirants are notified about their selection.
Flow	 Human Talent Staff navigates to the "Aspirants accepted" section. The Staff reviews the list of aspirants who completed the interview.
	3. The Staff compares the interview results and the aspirant's profile with the requirements for the position.4. Based on the comparison, the Staff selects the best aspirants that meet the criteria.
	5. The selected aspirants are notified by email about their selection.6. The selected aspirants are marked in the system as cho-
41.	sen for the next steps.
Alternative Flow	3a. If no aspirants meet the requirements: a. Human Talent can decide to keep the search open for more aspirants or re-evaluate other candidates.

Title	Send Contracting Documents to Manager
Author	Jeremy Poveda
Updated by	Jeremy Poveda
Date creation	29/12/24
Date last edition	12/01/2025
Description	Human Talent sends the generated contracting documents
	for multiple applicants to the manager for review.
Actors	Human Talent
Extends/Includes	None
Preconditions	
	The contracting documents must have been generated and reviewed for the applicants.
Postconditions	• The manager receives the documents for review and final approval.
Flow	1. Human Talent logs in.
	2. Human Talent goes to the "Generación de documentos" section.
	3. Human Talent selects the applicants whose documents need to be sent.
	4. Human Talent clicks the option to send selected docu-
	ments to the manager.
	5. Verify the esign of the aspirant.
	6. Human Talent sends the documents. If they are correctly esigned.
Alternative Flow	5a. The esign it's incorrect.
THUCHAUIVE FIOW	1. Human talent asks the aspirant to e-sign again.
	1. Haman varent asks the aspirant to c-sign again.

Table 3.12: Use Case Documentation - (UC012) Send Contracting Documents to Manager

Field	Description
ID	UC013
Title	E-sign Contract Documents
Author	Diego Flores
Updated by	Diego Flores
Date creation	23/12/24
Date last edition	12/1/25
Description	After the aspirant sends the personal data requested by human talent, they need to sign the respective contract to complete the hiring process.
Actors	Aspirant
Extends/Includes	None
Preconditions	• The aspirant submits preliminary documents (resume and ID copy).
	• Human Resources approves the preliminary documents and schedules an interview.
	• The aspirant must have attended the interview.
	• The aspirant must be accepted by Human Resources during the candidate acceptance process.
	• The aspirant submits the required documents that are requested.
	Human Resources ensures the validity of the submitted documents.
	• The aspirant is notified to sign the contract to complete the hiring process.
Postconditions	
	• The aspirant is notified that they have been hired for the project they initially applied for.
Flow	 The aspirant gets notified to sign the contract through the app. The aspirant logs into their account. The aspirant goes to the contract module. The aspirant selects the contract assigned by Human Talent. The aspirant signs the contract.
Alternative Flow	 If the user forgets to sign the contract: Five days after Human Talent has sent the contract, the aspirant is notified again to sign it.

Table 3.13: Use Case Documentation - (UC013) E-sign Contract Documents

Field	Description
ID	UC014
Title	View contracts
Author	Team 3
Updated by	Diego Flores
Date creation	16/12/24
Date last edition	16/12/24
Description	The manager through the mobile application will be able to
	find the applicants whose contracts are available to sign.
Actors	Manager
Extends	
	• Filter2
Preconditions	
	The manager must have logged into their account
	The manager mass have 1986ed mee their account
Postconditions	None
Flow	1. The manager logs into their account from the mobile
	application.
	2. The manager heads over to the "view contracts" module.
	3. The manager filters the applicant's contract to review the
	number of pending contracts to be signed.
Alternative Flow	
	• Filter applicant's contract by project.
	• Filter applicant's contract by Employment Relation-
	ship.

Title	See Project's Information
Author	Diego Flores
Updated by	Diego Flores
Date creation	08/01/25
Date last edition	08/01/25
Description	"See project's details" is a system feature that allows the project director to review details of his/her projects, such as the number of applicants hired and their personal data, and the job application status of those applicants who haven't been hired.
Actors	Project Director
Extends	Edit project
Preconditions	
	• The director must have selected a project that's displayed in the project's table list.
Postconditions	
	• The project director will be able to see detailed information about applicants and their job application status.
Flow	1. The director logs in to his/her account.
	2. The director clicks on "Mis proyectos."3. The director clicks on any of the projects in the project's table list.
Alternative Flow	Project director edits a project:
	1. The director logs in to his/her account.
	2. The director clicks on "Mis proyectos."
	3. The director clicks on any of the projects in the project's table list.
	4. The director clicks on "Estado de perfiles."
	5. The director will be able to change the job project's details such as the project's name, description, and project duration. The director will also be able to add a new profile vacancy.
	Project director clicks on "Estado de perfiles":
	1. The director logs in to his/her account.
	2. The director clicks on "Mis proyectos."
	3. The director clicks on any of the projects in the project's table list.
	4. The director clicks on "Estado de perfiles."
	5. The project director will be able to review the details of the aspirants, including name, ID, and postulation status.

Title	See Profiles
Author	Jeremy Poveda
Updated by	Jeremy Poveda
Date creation	16/01/25
Date last edition	16/01/25
Description	This feature allows the project manager or project director to filter applicants by project and view their application sta-
Α	tus for each profile.
Actors	Project Manager, Project Director
Extends	None
Preconditions	 The manager or project director must be logged into the system. The manager or project director must have at least one project with profiles and applicants associated.
Postconditions	• The manager or project director will be able to filter applicants by project and review the status of their applications.
Flow	 The manager or project director logs into the system. The manager or project director navigates to the "Profiles" section. The manager or project director applies a filter to select the desired project. The system displays a list of applicants for the selected project. The manager or project director reviews the postulation status for each applicant profile (e.g., accepted, pending contract sign, completed).
Alternative Flow	Filter applicants by status: 1. The manager or project director logs into the system. 2. The manager or project director navigates to the "Perfiles" section. 3. The manager or project director applies a filter to view applicants based on their application status (e.g., pending, accepted, rejected).

3.2 Use Cases - Mobile Module

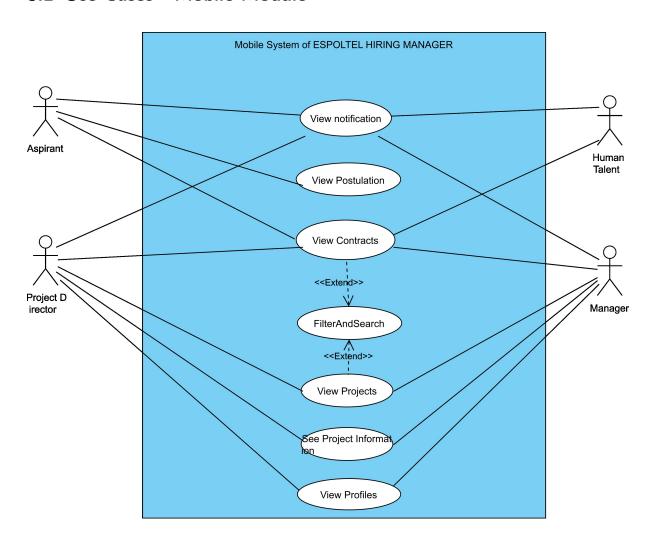

Figure 3.2: Mobile Module Use Cases Diagram of ESPOLTEL HIRING MANAGER

Field	Description
ID	UC018
Title	View Notifications on Mobile
Author	Jeremy Poveda
Updated by	Jeremy Poveda
Date creation	17/01/25
Date last edition	17/01/25
Description	This feature allows any user of ESPOLTEL HIRING MAN-
	AGER (Director, Aspirant, Manager, Human Talent) to re-
	ceive notifications on their mobile device about important
	updates regarding the hiring process and project manage-
A .	ment.
Actors	Director, Aspirant, Manager, Human Talent
Extends	None
Preconditions	
	• The user must have an account in the system.
	• The user must have a mobile device with the ESPOL-
	TEL HIRING MANAGER app installed.
	• The user must have enabled notifications for the app.
Postconditions	
	• The user will receive real-time notifications about rel-
	evant actions or updates in the hiring process and
	project status.
Flow	1. The user configures their mobile device to receive notifi-
1 10 W	cations from the ESPOLTEL HIRING MANAGER app.
	2. The system detects relevant events related to hiring or
	projects.
	3. The system sends a notification to the user's mobile de-
	vice, informing them about events such as:
	• A new candidate has been accepted or rejected.
	• A document has been requested or received.
	• A contract is ready for signature.
	• A project has an important update.
	• The status of an applicant's postulation has changed.
	4. The user receives the notification and can view additional details via the mobile app.
Alternative Flow	If the user has notifications disabled:
	1. The system will notify the user to enable notifications in
	their device settings.
	2. Once enabled, the user will begin receiving notifications
	as described in the main flow.

Name	View application status on mobile
Created by	Jeremy Poveda
Updated by	Jeremy Poveda
Date creation	14/01/25
Date last edition	17/01/25
Description	The system allows the aspirant to view the status of their applica-
	tion (e.g., accepted, pending, rejected) for a specific project, using
	a unique code, optimized for mobile devices.
Actors	Aspirant
Extends	Nothing
Preconditions	The aspirant has an account created and is logged in, as well
	as the project code they are interested in. The system must be
	optimized for mobile use.
Postconditions	The aspirant will be able to see the status of their application for
	the selected project, with the unique code, on their mobile device.
Flow	1. The aspirant opens the ESPOLTEL HIRING MANAGER app
	on their mobile device.
	2. The aspirant enters their credentials in the login section.
	5. The system displays the status (e.g., accepted, pending, re-
	jected) of the profile they applied for, optimized for mobile view-
	ing.
Alternative Flow	There are no alternative flows.

Title	View Projects on Mobile
Author	José Ramos
Updated by	Jeremy Poveda
Date creation	13/01/25
Date last edition	16/01/25
Description	The manager or project director will be able to view all the
	projects they are associated with, along with their descrip-
	tions, staff, start and end dates, and project status, directly
	from their mobile device.
Actors	Manager, Director
Extends	None
Preconditions	
	• The manager or director must have an account in the system and must have previously created projects.
Postconditions	
	• The manager or director will be able to monitor the
	application process for their projects and take neces-
	sary actions based on the project status, directly from
	their mobile device.
Flow	1. The manager or director opens the ESPOLTEL HIRING
	MANAGER mobile app.
	2. The manager or director navigates to the "My Projects"
	section.
	3. The manager or director logs into the system using their
	credentials.
	4. The system displays a list of projects that the manager
	or director is associated with, showing project descriptions,
	staff, start and end dates, and project status.
Alternative Flow	None
